

Gli autori

Maria Bigoni

Professor of Economics at the Department of Economics of the University of Bologna. She obtained a Ph.D. in Economics, Markets and Institutions from the IMT in Lucca. She was a visiting student at the Stockholm School of Economics, Tilburg University, Purdue University, and Chapman University. She has published in international journals such as «Econometrica», the «RAND Journal of Economics», the «Economic Journal», the «American Economic Journal - microeconomics», and the «Journal of Monetary Economics». Her main research interest is experimental economics. More recently, her research has focused also on the effects of economic inequality on cooperation, and on the evolution of preferences and pro-sociality among young children.

Stefania Bortolotti

Associate professor at the Department of Economics of the University of Bologna. She obtained a Ph.D. in Economics and Management from the University of Trento. She was a research fellow at the University of Bologna, the University of Cologne, and the Max Planck Institute in Bonn. She is interested in behavioural and experimental economics, and investigates topics such as cooperation, inequality, human capital, and algorithmic assignment. Her work has been published in international journals such as «Review of Economics and Statistics», «Economic Journal», «Games and Economic Behaviour», «European Economic Review», and «Journal of Money Credit & Banking».

Giuseppe Roberto Burgio

Former Full professor of Paediatrics at the University of Pavia, he was Director of the paediatric clinic at the University of Perugia from 1962 to 1965, in 1966 he took over as Director of paediatrics at the San Matteo Hospital in Pavia. In the twenty-four years of his directorship (1966-1989), he gave an extraordinary impulse to the paediatric clinic's activities

with the organisation, among other things, in 1976, alongside the in-patient wards, of a day-hospital type of admission system where children underwent clinical-diagnostic examinations in a short time with optimisation of services. He was president of the Italian Society of Paediatrics and is the author of a large number of scientific publications, including international ones. Among his books: (with Silvano Bertelloni) *Una pediatria per la società che cambia*, Tecniche Nuove, Milan 2007; (with Alberto Martini, Luigi Nespoli and Luigi D. Notarangelo), *Pediatria essenziale. Trattato di clinica e terapia*, 5ª edizione, Edizioni Ermes, Terni 2012.

Thomas Casadei

Full Professor of Philosophy of Law at the Department of Law of the University of Modena and Reggio Emilia – Unimore, he is Director of the CRID – Interdepartmental Research Center on Discrimination and vulnerability (www.unimore.it), member of the “Red Iberoamericana de Investigación sobre Formas Contemporaneas de Esclavitud y Derechos Humanos” and is part of the Research group.MI (Univ. of Bologna). His research interests, in recent years, have focused on human rights and their violations, starting from the different forms of discrimination, racism, contemporary trafficking and slavery, women’s rights, and institutional practices of social inclusion.

Paolo Marino Cattorini

Former Full professor of Clinical Bioethics at the University of Insubria in Varese, he is a physician and philosopher specialising in clinical psychology. He has been a member of several institutional-local and national ethics committees: National Commission for the fight against AIDS (Ministero della Sanità) and National Bioethics Committee. He has taught and organised modules in Masters courses in Medical Humanities, Forensic Criminology, Palliative Care, and Clinical Bioethics. His favourite areas of scientific research are philosophy of medicine, medical humanities, clinical bioethics and ethical counselling. He boasts more than three

hundred scientific publications including: *Bioetica clinica e consulenza filosofica*, Apogeo, Milan 2008; *Malattia e alleanza. Considerazioni etiche sull'esperienza del soffrire e la domanda di cura*, 2° ed., Pontecorboli, Florence 2010; *Bioetica. Metodo ed elementi di base per affrontare problemi clinici*, 4° ed., Masson – Elsevier, Milan 2011; *Il desiderio di salute. Bioetica nella clinica, nella società, nello sport*, Camilliane, Turin 2013; *Mangiare solo pensieri. Etica dell'anoressia*, EDB, Bologna 2016.

Carla Cuomo

Associate professor at the University of Bologna, she teaches Pedagogy and Music Didactic. She has a piano degree, before studying musicology she performed intensely as a concert performer. She also has a Ph.D. in Musicology and Musical Heritage and has published in various fields: Sound Ecology; 20th-century Italian Music Criticism; Music Education; the Neapolitan madrigal between the XVI and XVII Centuries. She is an elected member of the Directors boards of the following associations: “Il Saggiatore musicale”; ADUIM – Association of Italian University Music Professors. She is also a member of the IMS – International Musicological Society, where she collaborates with the Study Group *Transmission of Knowledge as a Primary Aim in Music Education*.

Isabel Fanlo Cortés

Ph.D. in Human Rights, is an associate professor of Legal Sociology at the Department of Law, University of Genova. Her main fields of research include: children's rights, access to justice, immigration, feminist legal theories. On these topics she's been working in different research projects, and publishing books and essays. She's co-director of «AG-AboutGender-International Journal on Gender Studies» and she coordinates the editorial board of the journal «Materiali per una storia della cultura giuridica».

Margherita Fort

Full professor at the Department of Economic Sciences at the University of Bologna. She received her Ph.D. in Applied Statistics in Economic and Social Sciences from the University of Padua and was Marie Curie Fellow (Institute for Social and Economic Research-ISER, Essex) and Max Weber fellow at the European University Institute. She collaborated with the FBK-IRVAPP research centre and is a research fellow at IZA, CESifo and CEPR. She has published in international journals such as «Journal of Political Economy», «Journal of Labor Economics», «Economic Journal», «Economic Policy». Her research deals mainly with applied micro-econometrics. In the recent years, her research is specifically focussing on the evidence-based investments in young children and their families.

Annalisa Guarini

Full Professor in Developmental and Educational Psychology at the Department of Psychology of the University of Bologna, she is Director of the SERES Psychological Service. She focuses her research on the development of language, number and cognitive skills in typical and atypical populations (i.e., preterm birth) and on bullying and cyberbullying phenomena. She is involved in national and international projects with researchers from Australia, Spain, USA, UK and Germany. She is the author of several articles and has presented her work in workshops and international conferences.

Daniela Iorio

Associate Professor of Economics and Director of the Master programme in Health Economics, Management and Policy at the University of Bologna. She held positions at the University of Southern California, Universitat Autònoma de Barcelona, and the European University Institute. She holds a Ph.D. in Economics from the University of Pennsylvania. Her main research interests lie in public economics and health economics.

Gian Luigi Marseglia

Full Professor of Paediatrics, he is Director of the Department of Clinical, Surgical, Diagnostic and Paediatric Sciences, University of Pavia and Director of the Paediatric Clinic - IRCCS Policlinico San Matteo Foundation of Pavia. He is coordinator of the 2nd level Master's Degree Course in Allergology and Immunology in the Age of Development, University of Pavia from 2009 to present; and is coordinator of the 2nd level Master's Degree Course in Nutrition and Nutraceuticals in the Age of Development, University of Pavia from 2019. He has been President of the College of Directors of Paediatrics Specialisation Schools since 1982 to date. Over the years, he has given over four hundred lectures at national and international congresses.

Chiara Monfardini

Full professor of econometrics at the University of Bologna since 2017. She received her Ph.D. in Economics from the European University Institute in 1997. Her research interests cover microeconomic methods (especially limited dependent variables models) as well as their application to topics such as children and adolescents time use and development, gender gaps in time use. She is a member of the Centre for Household, Income, Labour and Demographic Economics at Collegio Carlo Alberto (CHILD-CCA, Moncalieri, Torino) and IZA Research Fellow. She has published on international journals such as «Econometrics Journal», «Journal of Health Economics», «Journal of Labor Economics», «Oxford Bulletin of Economics and Statistics», «Review of Economics of the Household».

Giovanni Russo

Ph.D. Student in Philosophy in the Department of Philosophy of the University of Bologna. His research project deals with "Artificial Intelligence and Democracy" under the supervision of Professors Marina Lalatta Costerbosa (University of Bologna) and Beate Roessler (University of Amsterdam). He is currently conducting part of his doctor-

al research at the University of Amsterdam (UvA) as a Ph.D. Visiting Student. His main research interests focus on examining, from a critical theory perspective, how technology influences human relationships and impacts the functioning of liberal democracies. He has already published an essay on critical theory and democracy from Axel Honneth's perspective on «*dianoia.Rivista di filosofia*».

Alessandra Sansavini

Full Professor of Developmental and Education Psychology, she is Director of the Developmental Psychology Lab (DEL) at the Department of Psychology, University of Bologna. She focuses her research on the development of communication, language, relational, motor, and cognitive skills in typical and atypical populations (i.e., preterm birth, language delay) from infancy to school age and intervention projects. She is involved in national and international projects with researchers from Germany, Israel, Netherlands, Switzerland, and USA. She is the author of many scientific articles, chapters and coauthored volumes and has presented her work in workshops and international conferences.

Chiara Suttora

Associate Professor in Developmental and Educational Psychology at the Department of Psychology at the University of Bologna, she has specific expertise in infant and child development. Her research explores key aspects of early development, including communicative and language development and social-emotional growth in typical and atypical populations. Her work emphasizes the critical role of parenting practices and environmental influences in shaping these developmental processes.

Maria Teresa Tagliaventi

Researcher at the Department of Education Studies since 2004, she teaches Sociology of education, Welfare state and Social policy. She focuses her research mainly on inequali-

ties and differences in educational processes and the impact of social policies on the well-being of children and families. She was member of the Scientific Committee of the National Childhood and Adolescence Documentation and Analysis Centre from 2007 to 2010, named by Ministry of Welfare, and member of National Observatory on Childhood from 2007 to 2010 and 2014 to 2017.

Ilaria Tarricone

Associate Professor in the field MED/25 Psychiatry at the School of Medicine of the University of Bologna (researcher since 2006). She conducts her research in the field of social psychiatry and psychosomatics. Her research interests are particularly focused on the impact of migration history on psychophysical health, and in particular in the onset of psychotic disorders. She also deals with cultural competence in the doctor-patient relationship, equity, safety and sharing of treatment in psychiatry and gender medicine.

Carolina Tognon

Ph.D. student in “Philosophy, Science, Cognition, and Semiotics” at the University of Bologna. Her research interests are primarily focused on the relationship between law and morality, bioethical issues, and the concept of violence examined in its multiple nuances within the contemporary context. More specifically, her attention is directed towards the themes of social violence and *Schwarze Pädagogik* (Poisonous Pedagogy). He has already published several essays on these topics for the journal «dianoia.Rivista di filosofia».

Serena Vantin

Senior Assistant Professor at the Department of Philosophy of the University of Bologna. Her research areas include the history of the philosophy of law and the history of legal feminism, as well as the relationships between law, ethics and technologies.

Among her recent publications: *Il diritto antidiscriminatorio nell'era digitale* (Wolters Kluwer, Milan 2021); *Mary Woll-*

stonecraft (Sp. ed. Altamarea Ediciones, Madrid 2023; It. ed. Carocci, Rome 2025 forthcoming); *Le metamorfosi della responsabilità. Tecnica, diritto, bioetica* (Giappichelli, Turin 2024).

Mariagrazia Zuccarini

Junior assistant professor in Developmental and Educational Psychology at the Department of Science Education “Giovanni Maria Bertin”, University of Bologna. She focuses her research on the development of motor, language, and cognitive skills in typical and atypical populations (e.g., pre-term birth, language delay) and interventions. She is involved in national and international projects with researchers from Israel, UK, USA, Germany. She is the author of articles and chapters and has presented her work in workshops and national and international conferences.
